Rockstar's.

Well what an exciting week we had last week and what an adventure Y5 have had this week up in the Lake District.

We are lucky to partner with LGFL who very kindly give us free Internet, free Wi-Fi and free everything to do with IT in school (saving us £5000 a year). In return, we allow them to do case studies in our school and to make promotional videos, showcasing what they do for communities. Last week they spent a day filming and interviewing children and staff. The feedback from the TV crews was simply sensational. They saw happy, hardworking and eager to learn children.

On Thursday, Y1R had the pleasure of filming an educational dance video for the BBC. I was blown away watching these children (who have only been in Y1 for just over a week) really get to grips with the moves. They were brilliant! The BBC return in November to film for two days. The nation is in for a real treat when they see the finished article. Miss Roprai, take a bow and all the children in 1R.

Well after the Y4 Residential to the Lakes was sadly cancelled in June, we were delighted to re arrange, and wow, the weather we had for this week was spectacular. We could not have hoped for anything better. Not a cloud in the sky! The children did, fell walking adventures, went on a boat tour along Lake Windermere, went kayaking on the lake, did team building and were treated to delicious fish and chips and the obvious ice cream!

We adore residential here at Parklands and we are so happy that after last year's cancellations, we are back on them.
